The Magic of Science

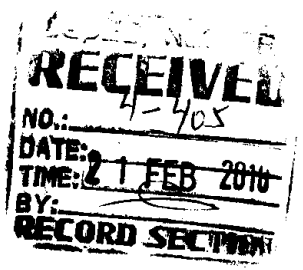

1. This office is hereby disseminating the communication from the Street Magic Club of Iloilo, encouraging all Science Clubs of big high schools or elementary schools in the region to avail and experience its Science magic and puppet show.
2. The said show utilizes a unique approach that benefits the participants to understand basic Science concepts and enhance their ideas on the essence of Science to the environment. This also features trivia on inventors and inventions, the scientific processes, the natural world, Physics and Chemistry.
3. The communication and other related documents are herewith attached for further reference.
4. For the information of all interested and concerned parties.

Salustiano T. Jimenez, CESO VI
Schools Division Superintendent
Division of Negros Oriental
Dumaguete City

Dear Sir Jimenez,

Greetings!

The Streetmagic Club of Iloilo is an organization of magicians and magic enthusiasts which aims to introduce the art of magic to the greater population. The organization would like to increase the awareness about magic as a legitimate branch of performing arts and as a powerful aid in teaching.

The Magic of Science

Magic has fascinated audiences since time immemorial. It has stirred the imagination of children and adults alike. Most of the magic we see can be associated with basic principles of Physics and Chemistry, but are creatively wrapped in a cloak of mystery. The Magic of Science is not a lecture that will reveal the secrets of magic. It is a Magic Show that will give students better understanding of some some basic science concepts by using visual representation. It will strengthen children's belief that science is the driving force acting upon everything around them.

The show will also feature little known trivia about inventors and inventions, the scientific processes, the natural world, Physics and Chemistry.

In connection with this, we are requesting your good office to allow the showing of the Magic of Science at selected public elementary and high schools here in Negros Oriental.

We guarantee the show's educational and entertainment value. We have been to more than 500 shows all over Visayas, covering Divisions of Aklan, Antique, Negros Occidental, Iloilo City, Iloilo Province, Guimaras, Province of Capiz, Bacolod City, San Carlos City, Sagay City, Escalante City, Cadiz City, Roxas City, Cebu City and Cebu Province. We are confident that the schools here in Negros Oriental will enjoy the show as much as all the other schools we visited before.

Thank you very much and more power!

Sincerely yours,

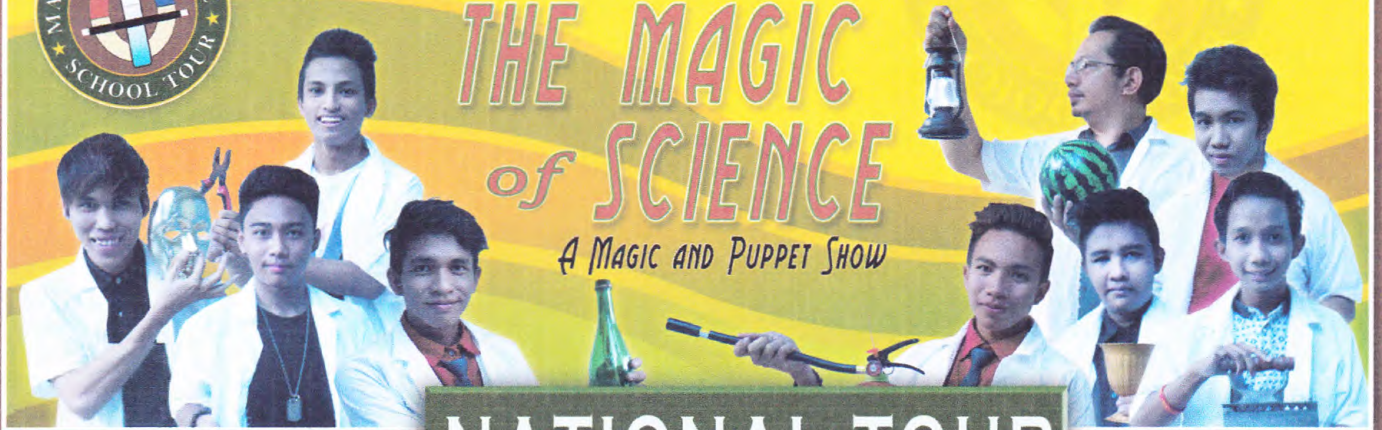

Mark Vincent G. Java
Vice- President for External Affairs
StreetMagic Club of Iloilo

SCIENCE MAGIC PHILIPPINES PROUDLY PRESENTS

THE MAGIC of SCIENCE

A MAGIC AND PUPPET SHOW

NATIONAL TOUR

SCIENCE HAS NEVER BEEN THIS FUN!

Advantages

of the Magic of Science Show

1. The show provides effective visual illustrations of science concepts, thus children can understand the concepts better.
2. Since it is a live performance, children are more involved and they participate more actively. The show lasts for at least an hour.
3. Magic of Science is presented in a very creative manner. It encourages artistic expression and creative thinking.
4. We provide very interesting trivia about the lives of famous scientists and inventors.
5. Teachers can get some ideas on how to present science topics other than their usual classroom/ laboratory presentation.
6. The show is a good way to open or end any science celebration because of its festive nature.
7. It is a good way for the school's science club to raise fund. 20% of the total revenue will go to the school's Science Club.
8. Our registration fee is very affordable (P20 only) and it's purely voluntary.
9. It is convenient for the schools since we will be providing for everything except the venue.
10. It is interesting, thus, easy to promote. Children are excited to watch the show, thus, objections are kept at the minimum.
11. We have an excellent track record in producing quality educational entertainment for children since 2013. We were able to perform in several District Science Camps and recently, performed for the delegates of the Western Visayas Regional Scilympics, held in Roxas City, Capiz.

What Science Educators Say About our Show

Thank you for sharing your gift of magic to 26 schools of the Division of Negros Occidental! More thank you for showing them that learning science is fun!

Dannie Clark Uguil- EPS (Science)
Division Negros Occidental

"This is one of the avenues in enhancing student's knowledge in science in a more interesting and ingenious manner."

Dr. Mary Cherry Lynn Dalipe- EPS (Science)
Division of Aklan Province

"Science-driven, explicitly amazing tricks.."
Johna P. Mana-ay- Science Coordinator,
Mina National High School

"Thank you for bringing happiness to our students"
Malee Batoy- District Coordinator, Malay and
Boracay District

"Thank you for the experience,
see you again next year.."
Jessica Capampangan- Science Coordinator,
Nangka National High School,
Balamban, Cebu

"Magic of Science makes science fun and interesting!"
Mr. Ryan Catilo- District Science Coordinator,
Janiuay Iloilo
